DESCRIPTION

- The hub is designed to add 8 USB 3.0 ports to any device with a USB A port, using a single input USB port.

- Each port has an independent switch to turn it on or off.

- Additionally, it is backward compatible with USB 3.0, USB 2.0, and 1.1 versions.

- Its compact and lightweight design facilitates transportation anywhere.

- It provides a data transfer speed of 5Gbps, helping to transmit data faster, saving time.

- Plug and Play installation, no driver installation required.

- Universal compatibility: PC/MAC.

- Equipped with a 5V/3A power adapter to power the hub when connecting multiple devices or devices that require a lot of power.

- With this adapter, we can convert 4 of its ports to USB BC1.2 (USB CHARGING 1.2), and obtain 5V/1.5A power from them for device charging.
