DESCRIPTION

- Set of two pairs of compatible wireless headphones with True Wireless Stereo technology and Bluetooth 5.1.
- Includes 2 pairs of in-ear headphones in case one pair runs out of battery, so that you can keep using them while the first pair charges.
- They can be used simultaneously by two people with two different devices or with the same one (if the device allows this function).
- Use the design that best adapts to each situation and change your look every day.
- Automatic connection function to turn the headphones on and synchronise them when removing them from the case.
- Their charging base has a 320mAh battery, with which you can fully charge the headphones 6 times for up to 30 hours of life.
- Touch Sensor so you can manage all the important functions (Next / Previous /Pause / Play / Volume+ / Volume -) simply by pressing a button.
- Headphone battery capacity of 25mAh, giving 5 hrs of life with a single charge (at 70% volume).
- Minimalist and ultra-light design providing a safe and comfortable fit.
- Includes tactile control buttons on both headphones to make them easier to control and so that you can play your music with just a gentle tap.
- Thanks to their hands-free function, you won't have to handle the telephone.
- At all times, the charging LEDs will indicate if the headphones are charging or are fully charged. Equally, the LED indicator for the charging base will inform you when this is charging or if it is 100% charged.
- Due to its small size and its double-compartment case, which enables them to be transported conveniently and safely, you can take them anywhere you like.
- Includes ear pads in 2 different sizes (S/M) so they can be perfectly adjusted to your ears.
- Wireless range of 10 m.
