

A close-up, high-angle shot of a woman lying down, her head tilted back. She is wearing dark sunglasses with bright, reflective lenses. Her hair is dark and slightly damp. She is wearing a black bikini top with a colorful beaded strap. The background is a bright, out-of-focus blue, suggesting a pool or beach setting. The overall mood is relaxed and summery.

TRENDNOLOGY AND ENTERTAINMENT COMPANY

NGS is one of the main European multinationals within the sector of manufacture and distribution of computer peripheral and consumer electronics mainly focused on products connected with life-style.

In 1994, the company decided to give a fresh impetus to its business, and it started to diversify its catalogue, including new product lines. Moreover, NGS took another very important step: the out-sourcing of the production. Due to both initiatives the manufacturer achieved a greater competitive and productive capacity.

With a constant growth which has allowed the company to gain a position in the market as an enterprise with great stability and soundness; nowadays NGS offers a broad range of products: its peripherals and consumer electronics products have turned the company into an undisputed leader.

This evolution and growth reveals an important bet for becoming also a technology and entertainment company aimed at a young audience interested in technology and innovation.

NGS has coined the term "**trendnology**" mixing fashion with haut tech trends.

NGS is more than a concept; it's a lifestyle. Technological products are designed for those who live their lives to the maximum: feel, discover & enjoy
