DESCRIPTION

- Enjoy maximum charging power with the NGS BUD65W-H, a charger designed for laptops and other high-consumption devices that combines advanced technology, versatility, and safety in an ultra-compact format.
- Thanks to GaN (Gallium Nitride) technology, this charger delivers a true 65W of power in a reduced size, optimizing energy efficiency and minimizing heat generation. It's perfect for those seeking fast and stable charging at home, in the office, or while traveling.
- It includes a 1.5-meter USB-C cable, ideal for convenient use in any environment, and a set of 8 DC connectors that convert the USB-C output into multiple formats compatible with different HP laptop models.
- With this kit, you'll have everything you need to keep your equipment running without the need for additional chargers.
- The NGS BUD65W-H provides fast, safe, and universal charging, protecting your devices and offering the flexibility you need in your daily life.
