

Wildska 1

Reference: Wildska 1

Description

Full Bluetooth-compatible DJ music system, 300W of power and excellent sound quality. Thanks to its wheels it's easy to transport and move around. Equipped with Micro SD, USB, AUX IN audio inputs and compatible with True Wireless Stereo Bluetooth technology, which allows you to wirelessly connect two sound devices of the WILDSKA Family.

It also has Audio output, which lets you connect several devices in series via cable. This system turns anywhere into a nightclub and is fabulous for parties. Trolley and battery.
