DESCRIPTION

- PC speaker with a 12W output power.
- This multimedia speaker delivers crisp and balanced stereo sound, as well as clear acoustics for an immersive audio experience.
- USB-powered, no need to connect it to an electrical outlet. You can connect it to any USB power source, such as the USB ports on a PC or laptop.
- Audio input with 3.5 mm jack cable.
- Built-in volume control for easy handling.
- Notable for its elegant design, made with high-quality materials that ensure durable use and protection against wear.
- Compact and sleek design that fits perfectly on either side of the computer without taking up extra desk space.
- "Plug and Play" installation.
